DETAILED ACTION

1. This communication is responsive to Amendment filed 01/11/2006.
2. Claims 1-29 are pending in this application. Claims 1, 15, and 25 are independent claims. This Office Action is made final.

Claim Rejections - 35 USC § 101

3. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

4. Claims 15-29 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

Claims 15-24 and 25-29 clearly recite a program product and a system respectively for calculating a linear minimum convolution according to a mathematical algorithm. In order for such a program product or system claim to be statutory, the claim(s) must recites a useful, concrete, and tangible result with respect to the disclosed practical application. However, claims 15-29 appear to be an abstract idea or mathematical construct rather than a practical application of the idea by computing the linear minimum convolution of a piecewise linear function including plurality of segments wherein claims 15-24 are encoded in a non-tangible medium as cited in page 27 of the specification and there is no tangible result(s) as required. Claims 25-29 fail to

disclose a tangible result with respect to the disclosed practical application. Therefore, claims 15-29 are clearly directed to a non-statutory subject matter.

Allowable Subject Matter

5. Claims 1-14 are allowed.

Response to Arguments

6. Applicant's arguments filed 01/11/2006 have been fully considered but they are not persuasive.

- a. The applicant argues in pages 12-13 for claims 15-29 that the Office appears to have analyzed claims 15 and 25 as if they were a process.

The examiner respectfully submits that the rejection of 101 non-statutory is clearly made above wherein claims 15-24 is a computer program product encoded in a non-tangible computer readable media as seen in page 27 of specification and claims 15-29 do not include a tangible result regardless whether or not it is a process claim.

Conclusion

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO

MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
